‘TORBAY EXPRESS’ MULTI SCENARIO PACK

THE PACK:

The Torbay Express is a named passenger train that used to run from London Paddington to Kingswear in Dartmouth. Today’s version is a special excursion running from Bristol Temple Meads through to Kingswear either via Westbury or Weston-Super-Mare.

In this pack, not only are both routes covered, you also have the option for slightly different experiences through different option paths. So, one day you may be looped for faster trains whilst it’s pouring down with rain, the next time you may have a faster run through but slowed down by a stopping service during a bright and sunny day.

You will also have the option for different rostered (supported) locos too across all 8 outward and 8 return (different options) scenarios.

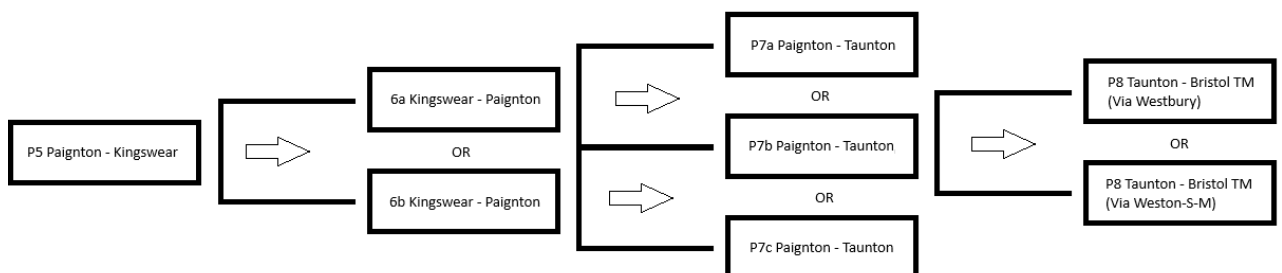

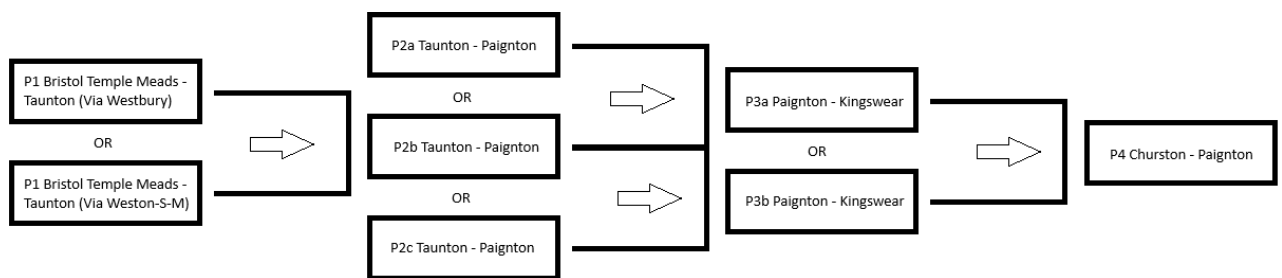

HOW TO INSTALL:

- Move the .exe file named ‘*Early/Mid/Modern Torbay Express Main/Free Pack*’ out of the zipped folder to a temporary location such as the desktop.
- Double click the relocated ‘*Torbay Express Main/Free Pack.exe*’ and follow the on-screen instructions.

INCLUDED SCENARIOS: (16 scenarios in total from the Main & Free packs)

Outward scenario path options.

Return scenario path options.

Name: (Part 1) 1Z27 08:00 Bristol Temple Meads to Kingswear (Via Westbury).
